Not feeling well?

[Check your symptoms now](#)

Boroughbury Medical Centre would like to invite you to join **DoctorLink**.

We have been looking at how we can improve access to Practice services; **DoctorLink** is our new online service where you can access advice and appointments on line.

Registration is simple and you can register here: <https://app.doctorlink.com/register>

Symptom Assessment

For all urgent appointments, we ask that you undertake a symptom assessment through **DoctorLink**.

The symptom checker will ask you a number of questions to help to identify your problem.

Assessment Outcome

The outcome of your assessment will direct you to the right treatment, whether emergency care, your GP, nurse or self-care.

If your outcome indicates that an appointment is required, you simply click on the request appointment link.

Once the request has been submitted, you will then be contacted by the Practice Team, to arrange an appointment within the identified timeframe (as outlined in the outcome of your symptom checker).

Information Sharing

The information you provide will be shared with our clinical team (where appropriate) and will assist in providing robust information of your problem to the required clinical team member prior to your appointment.
